Semester: 6th
Subject Name:- Cloud Computing& Code:- IT-3022
Branch (s): - CSE, IT, CSCE, CSSE

SPRING MID SEMESTER EXAMINATION-2024

School of Computer Engineering
Kalinga Institute of Industrial Technology, Deemed to be University
Cloud Computing
[IT-3022]

Time: 1 1/2 Hours **Full Mark: 20**

Answer Any four questions, including question No.1 which is compulsory.
The figures in the margin indicate full marks. Candidates are required to give their answers in their own words as far as practicable and all parts of a question should be answered in one place only.

1. Answer all the questions. [1 Mark X 5]
   a) Differentiate the advantages and disadvantages of a distributed system with a centralized system.
   b) Define cluster çomputing and its different types.
   c) Explain the different layers present in the 3-tier architecture of mobile computing.
   d) Discuss the benefits of data center in the context of Cloud computing.
   e) Identify a list of five major actors defined in the NIST cloud computing architecture.

2. Explain with a diagram the architecture of grid computing. Describe its advantages and disadvantages. List the different types of the grid systems. [5 Marks]

3. An academic institute has decided to conduct an online examination for admission purposes. As a project manager, you have to finalize the technologies for the development and a proper cloud service model to develop and deploy the application for a Cloud environment. What kind of cloud service would you prefer and why? Explain your plan in brief. [5 Marks]

4. Discuss the early technologies that played a significant role in the evolution of cloud computing. Compare the pros and cons of each technology with cloud computing. [5 Marks]

5. Compare the role and behavior of different deployment models present in cloud computing. Provide a case-based analysis of their behavior in the field of the banking sector using the metrics cost vs. security with one example. [5 Marks]

*** Best of Luck ***
